HAMBURG - Soloshow "NEW WAVE"

OPENING - THURSDAY NOV 5th

Circle Culture Gallery - Hamburg

The show "New Wave" reveals a complex vocabulary of forms and technical experiments, rooted within physical reality with a special focus on the law of gravity. The paint is shot at the canvas at the certain speed and frequency. The process which forms compositions can be compared to the sensitivity curve of the gravitational wave.

Katrin Fridriks works are unique distillation of research on the relations between mass, speed and the distribution of the Energy. Her works aspire to guide the viewer imagination to the otherworldly experience, beyond the gravity laws.

Opening: November 05, 19 – 21H

Exhibition : From November 6, 2015 to February 26, 2016

Circle Culture Gallery / Hamburg : Bismarckstraße 98 / 20253 Hamburg, Germany
