### FRIDRIKS WORKSHOP - SHOP MONOGRAPH BOOK "Force of Nature"

DEC. 2017

Katrin Fridriks is proud to announce her first monograph release, "Katrin Fridriks – Forces of Nature", spanning 15 years of bewildering abstract creations by the artist. Within 224 pages, and through critical approaches by Pierre Restany, Dr. Klaus Speidel or Dr. Loftur Reimar, she invites her public to get immersed in her fragmented landscapes and animated universes painted by her own throwing gesture.

"There is a strongly felt force while looking at her creations; Challenging our usual way of looking at things, just as Nature is unpredictable." Ilaria Porotto, curator

This book celebrates all the essence of Katrin Fridriks past and present creations, on this occasion the artist wants to give her past and future collectors the unique opportunity to go beyond the pages.

Besides the possibility to purchase a single Monograph, Fridriks Workshop offers 2 special Collector's editions . For each of them, every signed monograph will come with a collector's piece : a collector's envelope (edition of 50) or an original Waste Collector (edition of 58).
