BERLIN - "Art & Food for Thought" dinner & showcase

9 June 2018

## Circle Culture

Gipsstrasse 11, 10119 Berlin

Organized by PLATFRMevent & Circle Culture

9 June 2018 - 7.30 - 11pm

To celebrate the closing night of Katrin Fridriks Waste solo Show, on Saturday 9th June, Circle Culture Gallery will cohost a special dinner, curated by Johann Haehling von Lanzener and presented by PLATFRM events to create a unique experience for the guests. Gathered around the theme « Art & Food for Thought » this showcase and dining experience in the gallery will offer to the guests a new perspective on Katrin Fridriks body of work.

Selected carefully by PLATFRM chef, each course will be elaborated around « a food for thought », combining the artist's topics of waste, the environment and nature. Only local organic and wild ingredients found in and around Berlin will be served to respect the common thread of Waste Show.

Following the success of this new conceptual show and creative era, we are proud to announce Katrin Fridriks « Nobel Messenger & Awakening, 2017 » has been selected to be featured on Gaia Magazine May issue's - Cover.

Gaia is a peer-reviewed inter- and trans disciplinary journal for scientists and other interested parties concerned with causes and analyses of environmental and sustainability problems and their solution. A perfect platform to match with Katrin Fridriks common themes and causes. Katrin Fridriks latest exhibition, Waste, will also be featured in an article by Harald Heinrichs : "Sustainability science with Ozzy Osbourn, Julia Roberts, Ai Wei Wei..." on page 132.

RSVP: [info@eatandtreat.de](mailto:info@eatandtreat.de)
